ACKNOWLEDGEMENT

It gives us a great sense of pleasure to present the report of our B. Tech Project undertaken during B. Tech. Final Year. We owe special debt of gratitude to Mr. Aniruddha Das Sir, Mrs. Rajrupa maam, Department of Computer Science and Engineering, Haldia Institute of Technology for their constant support and guidance throughout the course of our work. Their sincerity, thoroughness and perseverance have been a constant source of inspiration for us. It is only their efforts that our endeavors have seen the light of the day.

We also take the opportunity to acknowledge the contribution of Professor Shuvankar Joardar, Head, Department of Computer Science and Engineering, Haldia Institute of Technology for his full support and assistance during the development of the project.

We also do not like to miss the opportunity to acknowledge the contribution of all faculty members of the department for their kind assistance and cooperation during the development of our project. Last but not the least, we acknowledge our friends for their contribution in the completion of the project.

ABSTRACT

This project Android Tour Guide provides the tourists with city map depending on the current location entered by the android phone user and shows the nearby places to visit. This information helps the tourists to find the desired locations to go to see. Well it also provides the reviews of those tourist spots as the basic information for the user to decide which places to visit. This project is mainly beneficial for the tourists' having no idea about the places they want to visit. By providing a geographic based information system the tourists and people shifting to new cities can get a better guidance of the places they want to visit .
